Nicholas Johnson Hyde Park, MA | 617.823.4937 | nickvanjohnson@gmail.com

Resourceful, and goal-oriented software engineer seeking opportunities to implement an excellent attention to detail, and a budding hunger for learning new skills and developing a solid craft. Providing a fresh mind and set of eyes into the field with a constant desire to reach beyond low bearing fruits in professionalism.

Experience

Wayfair | Software Engineer Intern Summer 2023

- Managed and resolved Kafka error issues, ensuring system reliability and performance.
- Conducted comprehensive program testing to identify bugs and improve software quality.
- Handled incoming support tickets, providing timely solutions and collaborating with team members to enhance operational efficiency.
- Gained hands-on experience in a professional engineering environment, deepening my understanding of software development processes and best practices

Wayfair | Software Engineer Intern Summer 2024

- Connected legal finance database (LFD) to UI by developing an Application Program Interface (API)
- Developed and implemented schemas organizing LFD for seamless navigation
- As a returning intern, I mentored newcomers and answered questions about company culture, cloud navigation, and guided others to helpful resources if I didn't know the answer.

Independent Contracting | Landscaping – Interior Remodeling 2021 – Ongoing

- Consistently piloted heavy duty machinery (tractors, trucks, gas-tools, etc.)
- Applied proper safety practices when operating machinery
- Created and maintained professional relationships with consumers and was responsible for maintaining properties while they were away.
- Communicated regularly with customers to provide high-quality work that met their needs

Education

Milton Academy – 2021 Grad

Clark University – Graduating: May 2025

Major: Computer Science | Minor: Screen Studies

- Courses Taken:
  - Algorithms, Analysis of Prog. Language, Automata Theory, Assembly Language, Web Development, Software Engineering, and Development Operations
- Black Student Union | Vice President
  - Facilitates general member meetings | Communicates club plans/requests with Diversity & Inclusion Offices | Enforces a safe BIPOC space

Skills & abilities

- Hard-Skills: Java | JavaScript | Python | Django | Safety Compliance | Mechanical Aptitude | API Development | Agile Workflow
- Soft-Skills: Critical Thinker | Receptive to feedback | Problem-Solver | Able to work both independently and collaboratively
